

We are here to help

R.A.R.E.SM
Recordati **A**ccess, **R**esources, and **E**ngagement

A patient support program designed to make it easier for you to access your treatment

Once you are prescribed SYLVANT (siltuximab), our patient support team can help with

Insurance Support

- **Insurance verification**—determining whether your insurance company will cover SYLVANT and help with understanding your insurance benefits for SYLVANT
- **Prior authorizations/appeals**—working with your doctor’s office and insurance company if additional approvals are needed

Financial Assistance

- **Co-pay assistance**—getting SYLVANT for \$5 per infusion* if you are an eligible commercially insured patient. For patients who are not eligible for co-pay support or who need additional assistance, R.A.R.E. can help connect you to other possible sources of funding
- **Patient Assistance Program (PAP)**—coordinating access for SYLVANT if you are an eligible patient who doesn’t have insurance or is underinsured
- **Additional assistance**—directing you to outside assistance if appropriate

*Restrictions, limitations, and/or eligibility requirements apply.

PAP, Patient Assistance Program; R.A.R.E., Recordati Access, Resources, and Engagement.

SYLVANT® (siltuximab) for injection

APPROVED USE

SYLVANT® (siltuximab) is a prescription medicine used to treat people with multicentric Castleman’s disease (MCD) who do not have human immunodeficiency virus (HIV) and human herpesvirus-8 (HHV-8) infection.

It is not known if SYLVANT is safe and effective in children.

IMPORTANT SAFETY INFORMATION

Do not take SYLVANT if you have had a severe allergic reaction to siltuximab or any of the ingredients in SYLVANT. See the Patient Information for SYLVANT for a complete list of ingredients.

Tell your healthcare provider if you have an infection. You should not receive SYLVANT if you have a severe infection.

Tell your healthcare provider if you have had a recent vaccination or are scheduled to receive any vaccinations. You should not receive a live vaccine during your treatment with SYLVANT.

Please see Important Safety Information throughout and accompanying full Prescribing Information, including Patient Information, at www.SYLVANT.com.

Additional R.A.R.E. Support

Personalized support for you while on SYLVANT® (siltuximab)

- **The Patient Liaison (PL)** is ready to connect with you if you opt in to the program to discuss SYLVANT and idiopathic multicentric Castleman disease
- **The PL Program*** provides one-on-one support services at no additional cost to you

IMPORTANT SAFETY INFORMATION *(continued)*

Tell your healthcare provider if you are pregnant or plan to become pregnant. It is not known if SYLVANT will harm your unborn baby. You should not become pregnant while receiving treatment with SYLVANT. Females who are able to become pregnant should use effective birth control during treatment with SYLVANT and for 3 months after stopping treatment.

Tell your healthcare provider if you are breastfeeding or plan to breastfeed. It is not known if SYLVANT passes into your breast milk. You and your healthcare provider should decide if you will take SYLVANT or breastfeed. You should not do both.

Tell your healthcare provider about all the medicines you take, including prescription and over-the-counter medicines, vitamins, and herbal supplements.

The most common side effects of SYLVANT include rash, itching, upper respiratory tract infection, swelling, weight gain, and increased blood level of uric acid.

These are not all the possible side effects of SYLVANT. Call your doctor for medical advice about side effects. You may report side effects to FDA at 1-800-FDA-1088.
